Dear Mr. Forby:

We have used your product on two of our 85 ton haul trucks at our limestone quarry. Both haul trucks had a problem of leaking air out of the tires and the AmerSeal product did a great job of sealing up the leaks in the 2007 R49 tires. Now our mechanics can focus on more important issues and not spend valuable time putting air in leaking tires. Thanks for your help.

Sincerely,

William E. Pyatt
General Manager
